Dear Parents and Carers,

Parking on St Clement's High School Site

Unfortunately, I must ask that no-one parks in our car park when dropping off or collecting primary school children.

There have been a number of occasions when cars parked on our roadway have made it difficult for school buses to access the site, and so the safety of our students has been comprised. There have also been instances of buses causing severe damage to inappropriately parked cars.

Over the summer new signs and markings have been added to emphasize the no parking rule. Please help us to keep everyone safe by respecting this request, parking spaces are available in the village adjacent to the Memorial Playing Field.

In line with Government requirements we are extending our school day, traffic congestion at the school may therefore increase as the start and end times of the two schools will be more closely aligned.

Schools are private property and so anyone parking on our site will be asked to move, please treat our staff respectfully in these instances.

Thank you for supporting us in enforcing this safety measure.

Yours sincerely,

Mr N. K. Willingham  
Headteacher
